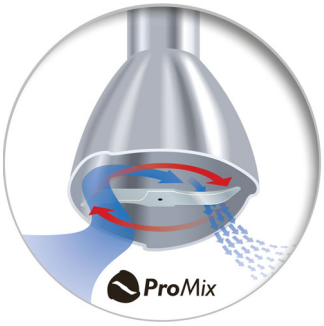
Highlights

ProMix blending technology



The Philips handblender ProMix thechnology was developed together with the prestigious Stuttgart University. It is an advanced technology for more consistent and faster blending. The unique ProMix blending technology of Philips hand blenders uses a triangular shape to create an optimal flow and gives maximum performance making silky smooth soups and smoothies.

Powerful 700 W motor

The Philips handblender with powerful and reliable motor of 700 Watt can blend and almost any ingredient and delivers smooth results. With this motor power this hand blender can drive also a large variety of accessoires.

SpeedTouch with Turbo function

This Philips hand blender has the SpeedTouch with variable stettings and a turbo function in one button. Control with your finger tips in an intuatitve way the handblender: the more you squeeze the more power. It helps you to start slowly without splashing and smoothy speed-up till you reach your preferred speed setting. With variable speed settings and a turbo function you have a full spectrum of speeds available for any type of ingredient, creating the perferred consistency or smoothest blending results.

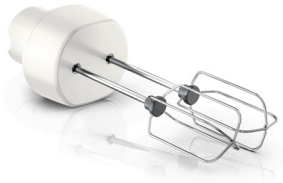
Anti-splash blade guard

The special wave shape in the bottom part of the handblender blending bar garantees no splashes or mess while you blend.

Ergonomic rubber grip

This Philips hand blender has a ergonomic soft touch handgrip that is designed to give a secure and safe grip which helps to maneuver the hand blender during use.

Mixer accessory with 2 beaters



This mixer accessory or double whisk for the Philips hand blender has 2 beaters or whisks. It can even make cake batter. The mixer accessory helps you to mix, whisk larger quantities faster and with more volume than the single whisk or by hand. You can prepare cake batter, sponge cake, muffins, cream, eggs and more.

Compact chopper accessory

With the compact chopper accessory (300ml) for this Philips hand blender you can chop meat, herbs, nuts, cheese, chocolat and onions in seconds.

Beaker 1200ml

A beaker 1200ml for blending, whisking, mixing is included with the handblender. The beaker for the handblender comes with a handy spout, handle and measures.
